Three simple steps to get started:

1. Call us or visit our website to register using Dealer code:
2. Load your account with \$20 or more.
3. Install our App and start calling!

Why ^{PBX}On The Cloud instead of Calling Cards?

1. No need to remember PINs or carry a card
2. Your family and friends in other countries* can call you at the same rates using local numbers.
3. Balance will not expire and there is no fee per call, you only pay for the duration of the call.
4. You can easily recharge your account.

* Visit our website or call us for a list of countries and local numbers

Frequently Asked Questions

How can I recharge my account?

Just visit our web page at <http://pbxonthecloud.com> and go to the "Buy" section where you can:

- 1) Use your credit or debit card.
- 2) Send us payments via PayPal (<http://paypal.com>). PayPal lets you register your bank accounts or Credit or Debit Cards to pay us.
- 3) Make a cash deposit via PayNearMe (<http://paynearme.com/pay>) at nearly 17,000 7-Eleven, Family Dollar, and ACE Cash Express stores nationwide.

Which Smartphones can I use?

Any Android or iPhone Smartphone with 4G/LTE service will work. You will need to install one of our recommended Apps. Just call us or follow the instructions in our website under the "How it Works" section.

How can my family and friends in other countries call me at my Smartphone?

They will dial any of the local numbers indicated in our website and they will be asked to enter your smartphone number. You will pay for the call at the same low rates to that location.

Will this service increase my smartphone bill?

If you make calls while your smartphone is connected to a WiFi network, there will be no increase at all.

If your smartphone is not connected to a WiFi network, calls will be using your data plan. If you don't exceed your data plan limits, there will not be any additional charge.
